CAUTI (1.0 or lower is better)	1.64
POSTOPERATIVE SEPSIS RATE (4.18 or lower is better)	5.43

Commercial Breakeven is the percentage of Medicare payment that commercial payers would need to pay for the hospital to break even across payers and services, without profit.

Commercial Price (Above Medicare) is the price average commercial reimbursement rate relative to Medicare from RAND 5.1 hospital price transparency data.

Price-Breakeven Gap is RAND 5.1 Price minus Commercial Breakeven. Larger gaps suggest commercial prices are farther above the hospital's estimated break-even level.

Operating Profit Margin (OPM) is Operating Profit (Loss) divided by Net Patient Revenue.
